

TIS News

Thought for the week:

"The pupil, who is never required to do what he cannot do, never does what he can do." - John Stuart Mill

This Week @ TIS

We have now reached the end of Term Two and as usual it has been a full first semester. It is difficult to believe that it was in February that we were welcoming a new intake of students and families as well as four new teachers to the school.

The students have been busy not only in the classroom, but in presenting assemblies, swimming programme, the Fun Run and many varied After School Activities. We would like to thank those parents and friends of the school who have given their time and skills in providing and helping with many of the events at school.

The early part of next term will be a very busy one for us as we prepare for the upcoming school review.

Mid Year Holiday

School closes on Friday 24th June for the three week mid-year break. We re-open on Monday 18th July. We wish everybody an enjoyable holiday. The school office will be open during most of the holiday.

Suki Trip - June 2005

A Tabubil Star Mountains Fishing Club trip to Suki was held for during the Queen's Birthday June long weekend.

It was discovered that two Suki Community schools were in need of classroom resources and it would be greatly appreciated by the people of Suki if any educational items or school materials could be donated.

TIS was then approached as a possible sponsor and agreed to help by becoming involved in helping a local community school.

Various items were collected for donation; these included chalk, paper and books. Books included text books such

as atlases and dictionaries as well as for learning in particular subjects

such as Mathematics and English. Around six large boxes of materials were collected and these were personally handed over to the main school at Suki by

Mr. Grant Sharpe and Mr. Stephen McCosker on behalf of Tabubil International School. Mr. Charles Tenekanai assisted in the collection and transport arrangements of the materials, all of which were gratefully received.

Overall it was a highly successful trip to Suki and the Star Mountains Fishing Club is eager to arrange the next one. We are not sure yet when it will be but rest assured it will be as soon as possible. The fishing was great and the people were very friendly. We would like to continue our involvement with the Suki community and Tabubil International School would also like to build upon its links to the community schools at Suki. We hope it will develop into a long term partnership and a lasting friendship amongst all involved.
